Maritime internet for leisure yachts

High-performing internet you expect on land. Now at sea.
No other provider offers enhanced maritime connectivity like Viasat. Our game-changing technology delivers unparalleled bandwidth and no speed limits* for superior internet experiences that allow guests and crew to stream, browse, and watch movies just as they would at home or in the office.

* “No speed limits” means that there is no cap set on the speed delivered within a specific maritime plan. Speeds may still be limited by terminal equipment capabilities, network and environmental conditions, and other factors. “Typical” speeds are the speeds a terminal should usually experience under normal network and environmental conditions. Speeds are “up to,” are not guaranteed and will vary. Typical speeds range between 25 Mbps and 50 Mbps. However, peak speeds in excess of 100 Mbps are possible.
Changing the game for maritime internet

No other provider can bring high-speed, reliable internet to maritime like Viasat.

1

Advanced technology

Our powerful, high-capacity satellite network means more speed, data and performance while you cruise.

› No hard data caps
› No speed limits
› An at-home internet experience at sea

2

Unrivaled connectivity

We deliver fast, seamless internet for everyone on board.

› Stream, browse, connect without interruption
› Pay a fixed monthly price
› Operates on proven Cobham SAILOR equipment

3

Best internet experience

Today’s guests expect the best – and we help you deliver it.

› Keep everyone connected to work and family
› Provide access to HD and 4K video streaming, movies, TV and sports
› Get separate connectivity links for guests and crew

** Depending on the specific Viasat maritime plan, once you reach the data consumption threshold for that plan, your data will be prioritized behind other customers during network congestion. Please see page 4 for further details.

Equipping your leisure yacht

Easy to install, low-profile equipment delivers more performance, reliability, personalization and everything great maritime internet should bring to guests and crew.

SUPERYACHTS (SAILOR 900)

› Ideal for superyachts and large leisure yachts
› 103 cm size
› View specs: SAILOR 900

MIDSIZE YACHTS (SAILOR 600)

› Ideal for midsize leisure yachts
› 65 cm size
› View specs: SAILOR 600

Viasat Marine Access System

› Fully managed on-board networking solution
› Enjoy unmatched speeds from Viasat’s next-generation satellite technology
Leisure plans and pricing†

All plans offer no speed limits and no hard data caps

**Superyachts**

(SAILOR 900)

$4,995/month

› No hard data caps‡
  (After you use 600 GBs of data, we may prioritize your data behind other customers during network congestion, which will result in slower speeds.)

› Suitable for up to 12 guests/crew

› SD video on small/medium screens

$9,995/month

› No hard data caps‡
  (After you use 1,250 GBs of data, we may prioritize your data behind other customers during network congestion, which will result in slower speeds.)

› Suitable for up to 24 guests/crew

› HD video on small/medium/large screens

**Midsize yachts**

(SAILOR 600)

$1,795/month

› No hard data caps‡
  (After you use 125 GBs of data, we may prioritize your data behind other customers during network congestion, which will result in slower speeds.)

› Suitable for up to 5 guests/crew

› SD video on small screens

$9,995/month

› No hard data caps‡
  (After you use 1,250 GBs of data, we may prioritize your data behind other customers during network congestion, which will result in slower speeds.)

› Suitable for up to 24 guests/crew

› HD video on small/medium/large screens

$2,995/month

› No hard data caps‡
  (After you use 225 GBs of data, we may prioritize your data behind other customers during network congestion, which will result in slower speeds.)

› Suitable for up to 10 guests/crew

› SD video on small/medium/large screens

† Minimum 6-month service term. Equipment and installation fees apply and are priced and provided by a third party. Taxes apply. Speeds are not guaranteed and will vary. Service is not available in all areas. Offer may be changed or withdrawn at any time.

‡ Users on Viasat maritime network will have premium priority until data consumption reaches the allocation stated in their specific maritime plan. After this data consumption, and only in cases of congestion, standard priority will be given, which could result in slower speeds.
